

# Develop Adaptive Forms using Adobe Experience Manager v6.x

## Objectives:

After completing this course, you should be able to:

- Use AEM Forms Designer to configure form behavior, form data, and the AEM Form OSGi technology
- Describe the “service”-oriented nature of AEM Forms
- Configure and manage the back-end data behavior and processes when a form is submitted
- Configure a form’s model in XML
- Use JavaScript to add functionality
- Pre-populate forms using the Prefill service
- Use Instance Manager to make a User Driven Dynamic Form
- Generate a Multi Record PDF using Output and Watch Folder
- Add functionality to Adaptive Forms using Client Libraries
- Create and Configure a Document of Record (XDP)
- Build a mobile solution

## Course Description:

This (formerly offered as AEM Forms for AEM Developer and AEM Forms for JEE Forms Developer) is a two-day, instructor-led in a classroom or virtual training, where you will learn to configure and develop Adaptive Forms and Document functionality. This course will cover configuration topics for a developer including the prefill service, form templates, document services, client libraries, mobile form features, creating a document of record (XDP File), and building a mobile solution. Participants will configure form data and document of record, and learn best practices for developers.

## Course Outline:

- Introduction to AEM Forms
- AEM Forms Development with Forms Designer
- Prefill Service
- Configuring Templates
- Configuring Document Services
- Client Libraries
- Creating a Document of Record
- Building a Mobile Solution

## Overview:

Learn how to develop or create custom templates, components, and client libraries. You will also learn about document services, prefill services, and document of record.

## Duration:

2 Days

## Training Methods:

- On-site at Customer’s facility anywhere around the world
- Public Classroom Training
- Virtual/Online Training

## Audience:

This course is designed for Forms developers, application developers, and IT Support.
