

Administer and Secure AEM 6.x Forms in JEE platform

Outline:

Learn how to install, configure, maintain, optimize, troubleshoot and secure your AEM Forms JEE Server. Also, learn how to deploy and migrate packages.

Course Description:

Are you a System Admin or a Developer responsible for installing, configuring, maintaining, tuning, and troubleshooting Adobe LiveCycle ES2/ES3/ES4 Server? Are you looking to upgrade to AEM Forms JEE Server? This course will provide you an excellent overview of various modules of the Adobe LiveCycle server you will be managing. You will also be doing some hands-on administration exercises so you feel more comfortable when you implement what you learn in your real environment.

Audience:	LiveCycle Administrators, IT/Systems Administrators, Technical Support Staff and LiveCycle developers looking to learn more about setting up and maintaining the LiveCycle server.
Training Method:	<ul style="list-style-type: none">• Classroom Training• On-site at client's facility anywhere• Virtual/Online Training
Duration:	2 Days

Training Objectives:

At the end of this course, students will be able to effectively configure, manage, tune and optimize a multi service LiveCycle environment.

Course Outline:

**ADOBE LIVECYCLE
ADMINISTRATION
TRAINING**
